Relapse Cures of 1879 and 1880 are the finest in the market.

Relapse Cures of 1879 and 1880 are the finest in the market.
Rescued from Death
William J. Connelley, of Somerville, Mass., says: "In the fall of 1879, I was taken with a relapse of the disease which I had been cured of. I lost my appetite and sleep, and was confined to my bed. In 1880, I was cured by the use of the Relapse Cures. I have since been well and have been able to do my usual work. I can positively say it has done more good than all the other medicines I have taken since my sickness."

The Famous Opera Singers.
Annie Louise Carey and Clara Louise Kellogg are beyond question the most famous opera singers of the present time. In fact they have been acknowledged to be the leaders of their profession, as well as ladies of large experience and performance. They have been traveling more extensively than any ladies on the stage, and as a consequence, have had excellent opportunities of judging of the merits of different countries and their productions. It is certainly a very great credit to the Pacific to have had them pronounce the Yosemite the best they have ever seen in any country. For sale by all druggists. R. E. Queen, Reno. apr19-1

Something New.
In transit from New York: an immense variety of Spring fabrics in all the new designs for 1882. My importation of English, Scotch and French cassimeres includes all the choicest productions of the foreign mills, and my line of domestic cassimeres are full and varied. No California or Oregon goods in stock. Suits, new woolen goods, at \$25 and upwards. Pants, new woolen goods, at \$7 and upwards. My coats do not "shrink" or fall off the collar bag in the back, or stick out in front. Call at the oldest establishment in Reno, and you will be spared to please you. A complete fit guaranteed. F. Kolster, mar23-1f

Address: R. E. Queen, Sacramento. apr1-1m

To the Traveling Public.
People who ride on railroad trains need good watches. W. B. Miller, of Sacramento, keeps them, and invites all who visit the city to call at his store, No. 228 J street, and examine his stock. He makes a specialty of standard time watches, and guarantees his goods and prices to be bargains. He has a large and fine stock of jewelry, diamonds, silver and plated ware, etc. apr1-1m

Notice to the Public.
The citizens of Reno are hereby notified that I will, with the assistance of my family, carry on the business in the bakery known as "Jake Graft's" bakery, as heretofore, and respectfully ask the patronage of all our old friends for the support of said family. Contrary reports notwithstanding, Eddie Graft will deliver bread to all customers with his well-known civility and dispatch. mar2-1f

\$3.00 Per Dozen.
An opportunity seldom offered, and never before in Reno. On and after the 15th inst., and until further notice, Harry Dunham will make cabinet photographs for \$3 per dozen, and all other work in proportion. Remember the time will not be long; so call early. mar1-1f

A Smooth Complexion.
Can be had by every lady who will use Parker's Ginger Tonic. Regulating the internal organs and purifying the blood, it quickly removes pimples and gives a healthy bloom to the cheek. Read about it in another column. apr3-1m

The pleasures of the table cease.
When the teeth begin to fall;
The beauties of the month decay;
The breath's no more a spicy gale;
And all must soon in ruin lie.
Unless to SUZUDONT we fly.

Society Belies.
On account of its remarkably delicate and strong fragrance, being as good as the roses of Florence Cologne. apr3-1m

Annoyance Avoided.
Gray hairs are horrible, but their premature appearance is annoying. Parker's Hair Balsam prevents the annoyance by promptly restoring the youthful color. apr3-1m

COAST CLIPPINGS.

A Chinese thief was killed by a trap-gun near North Bloomfield, Nevada county, last Tuesday.

A farmer on the Sacramento river, in Colusa county, is about to engage extensively in jute growing.

Alfred Donna was thrown from a horse and dragged to death, in Santa Barbara county, Wednesday.

The Shorthorn Breeders' Association of California met at San Jose Tuesday and elected officers for the ensuing year.

The Butte, Montana, papers complain that their city is being overrun with "tenderfeet" without money or business.

The Odd Fellows in all the towns of this State are making preparations for the observance of their anniversary on the 26th.

The Union Pacific is so crowded with emigrants and other passengers along the line, that the road is short of cars to carry them.

The Chief of Police at San Carlos, Arizona, has been killed by Indians, and it is said that Loco's band of Warm Spring Indians are on the war-path.

Orchardists about San Lorenzo, California, are washing their trees with a sulphur wash to prevent insects from coming near them. Trees washed with lye during the winter show wonderful signs of improvement.

A committee composed of the young mechanics and others of San Lorenzo make it very unpleasant for tramps in that town. None are allowed to remain within a half a mile of the place over night, but are "bounced" and warned never to return.

A carload of raisins shipped to Chicago from Marysville, Cal., by Dr. Chandler of Sutter county was almost entirely ruined by an accident on the Union Pacific. The packages of the fruit were so badly crushed that they sold for next to nothing. The Doctor is to receive damages of about \$2,400 from the Union Pacific company.

Of all the theatres in the country, says the New York Dramatic News, the People's Theatre, now building in St. Louis, Mo., will have one of the best appointed stages; in fact none will surpass it in finish and completeness. This is being conducted by H. C. Raymond, at present in St. Louis, and his interest in the work has been demonstrated by his devoting labor to night and day in order to insure its completion and in time for the opening. Mr. Raymond was much exposed to night duty, naturally incidental in the erection of an enormous new building, such as the People's, and the result was the contraction of a severe case of rheumatism in the left leg. A single application of St. Jacobs Oil brought relief, and in a very short time the pain disappeared entirely. Mr. Raymond keeps a supply convenient in case of a recurrence of a similar trouble.

A Profitable Industry.
The San Francisco Report thinks the shooting business is one of the best paying industries in the United States, and points out a few instances as proofs thereof. Giteau is rapidly growing wealthy, and there is already a wrangle over his estate, just as there is over any other millionaire; the Fords get \$50,000 for murdering Jesse James, and the "Baby and the Baby" fund—for the relief of Sergeant Mason's family—amounts to \$7,000.

WARNER'S SAFE
The Leading Scientists of To-day agree that most diseases are caused by disordered kidneys or liver. The discovery of Warner's Safe Kidney and Liver Cure marks an era in the treatment of these diseases. It is a POSITIVE remedy for all diseases that cause pains in the lower part of the body, for torpid liver, headache, jaundice, dizziness, gravel, fever, acute, malarial fever and all difficulties of the kidneys, liver, and urinary organs. It is an excellent and safe remedy for females during pregnancy. It will control menstruation, and is invaluable for leucorrhoea or falling of the womb. As a blood purifier it is unequalled, as it cures the organs that make the blood.
This remedy, which has done such wonders, is put up in the LARGEST SIZED BOTTLES and any medicine on the market, and is sold by druggists and dealers at \$1.25 per bottle. For diabetes, inquire for WARNER'S SAFE DIABETES CURE. It is a POSITIVE remedy.

OLD FOSSILS TO THE FRONT.

An important list of nominations was sent to the Senate yesterday, comprising several missions which have been long vacant. It is the universally expressed opinion that the President is not strengthening himself by the appointments he is making. The weakest part of his policy is said to be that he continues to make appointments by the same old obnoxious rule which at one time made Grant so unpopular. The majority nominated this afternoon are fossils. Mr. Taft, nominated as Minister to Vienna, is a broken-down old man. The Vienna Court is one of the most rigid of all European missions, so far as etiquette is concerned. There is no other place where the presence of an adroit, polished man, fully abreast with modern thought, is so necessary to produce a good impression. Mr. Taft is uncouth in manners, and frightfully absent-minded and forgetful. Wm. L. Day of New Jersey, appointed Minister to the Netherlands, is simply an old friend of Secretary Frelinghuysen. Nicholas Fish, appointed Minister to Belgium, is a son of Hamilton Fish, and represents the old Grant regime. James M. Francis, nominated Charge d'Affaires to Portugal, was formerly Minister to Greece. He has grown fat and rusty in the work of editing a small provincial party organ, and represents nothing but his small paper. Wickesham of Pennsylvania, nominated to Denmark, is an appointment of Don Cameron. Adam Badeau, transferred from London to Havana, is one of the worst snobs in the entire Consular service, and has done more to make the American republic conspicuously ridiculous in the eyes of foreign nations than perhaps any other member in this service. Even Stalwarts chafe against the President's course, and wonder why he keeps himself within such narrow limits in making appointments.

EDITORIAL NOTES.

The Salt Lake Tribune says that all Mormons look forward with dread to the semi-annual Conference meeting, when they expect to hear their names read off in the Tabernacle and receive the solemn summons to leave home and friends and wander in strange lands, where they expect to be maltreated and imprisoned. There is no appeal from their appointments, and when a man's name is read off, he has nothing to do but to pack up his things and set out. It is generally understood that the men sent abroad are in some way especially fitted to spread the bogus gospel to the world, but the Mormons know well enough that a man who is a Bishop's rival in love affairs is more likely than any to be ordered to go.

The Australian colonies succeeded in passing a law to shut out Chinese laborers from Queensland. In the light of this fact it would seem that America would have fared better in one respect had it refrained from revolting against the mother country, for then the Pacific Coast dependencies would have been independent enough to pass an anti-Chinese measure.

The U. S. steamer Corwin, now at Mare Island navy yard, is to be sent to the relief of the crew of the wrecked Rodgers. In proper time a vessel will have to be sent to the relief of the Corwin.

The necessary expenditures of the Government last year were \$280,000,000. The estimated ordinary expenditures for the current fiscal year are \$270,000,000. The Federal taxation this year will exceed \$400,000,000.

Rumors are current that James G. Blaine will be appointed Minister to England. Just the man for the place, if he will accept it.

The anti-Chinese convention to be held in San Francisco promises to be an imposing affair.

The Canadian House of Commons has passed the bill authorizing, under certain conditions, the construction of the Canadian Pacific Railroad through some other than the Yellowstone Pass.

New York Sugar Merchants in a Flitter.

NEW YORK, April 21.

The sugar interests of the city are excited, which the *Sun* explains by the following details: The latest Pacific Mail steamship arriving in this port brought a small quantity of Hawaiian sugar, the first of this particular class of nominally raw material to reach this market. There can be no question of admitting this lot of sugar free of duty, for it has been so admitted in San Francisco; but its coming, nevertheless, awakens a very lively interest among sugar men, not simply because of curiosity about its grade—which is expected to be illustrative of the character of a vastly greater quantity now afloat and bound here direct from the Sandwich Islands—but for the reason that it is regarded as the first showing of the cloud which, if the present reciprocal treaty with those islands is maintained, must quickly overshadow and have a most pernicious influence upon all other sugar interests in this country than those of one ring of California speculators, known as "the Claus Spreckels combination." The *Sun* then gives the history of the treaty and a narrative of how it has operated since, and ends with interviews with several New York sugar refiners. The gist of the latter is as subjoined: Spreckels has driven Eastern refiners out of Denver and many other places on this side of the Rocky Mountains with his duty-free so-called Sandwich Islands sugar. He has made enormous profits by several advantages he enjoys in his monopoly, for he has not cheapened his refined products any more than a mere fraction of a cent below New York prices and freight, which was necessary to hold the market when granulated sugar was worth 10 cents, making 2 1/4 cents per pound difference against home buyers, and a Denver man buying at that could lay sugar down in his own store at just 1/4 of a cent per pound less than Eastern buyers could deliver it to him. One dealer remarked: "I don't suppose there's a man in the street who wouldn't do the same thing if he had the chance. People don't care about Spreckels. The fault is with the treaty, and that must be abrogated, or it will play the deuce with us."

The Crew of the Rodgers Safe and Well.

NEW YORK, April 21.

Information from Siberia is received here that the steamer Rodgers was burned on the 1st of January of this year; that Lieutenant Berry and the crew are at Tugkan, where they get food enough from the Chukches. Mr. Denarawa of Kolmsk had sent tobacco and tea to them for bartering purposes; they needed nothing else. Three months' provisions were saved from the ship. Tugkan is near Cape Serdze. Further details say that endeavors to save the ship were made in vain. She lay within a short distance of the shore, but the young ice could not bear the weight of the men, and a line from the ship to the shore was fixed with much difficulty. By this line and the boats the crew were all safely landed. The entire ship's company are in good health and spirits. There is no danger of their starving. Governor Tcherniaeff has given orders to the Chukche chiefs to do all in their power to assist the shipwrecked crew. The latest news from Verkhoyansk is that they are anxious there about the Isprovnik, who went with Melville, and who they think ought to have returned in February (old style). He has not yet returned. Terrible hurricanes, with snow have prevailed of late in the Verkhoyansk district, and they are afraid the Isprovnik has perished, and eventually the whole party, as the Isprovnik had orders to accompany Melville until such time as the latter might choose to send him back.

Attempt to Rob an Express Train—One Man Killed and Two Wounded.

KANSAS CITY, April 21.

Passengers from the west report that the east-bound passenger train on the Atchison, Topeka & Santa Fe was ditched last Sunday night near Rincon, N. M., and five heavily armed men attempted to rob the express, but got into a baggage car instead. Before they could rectify the mistake the train men and passengers appeared in such numbers that the robbers fled. A fireman was killed by the accident. The engineer and Wells, Fargo & Co.'s messenger were badly wounded. The express is supposed to have had \$200,000 in silver from the Arizona mines, bound for New York. It is thought the would-be robbers were informed of the fact by telegraph at Rincon, and that they belong to a band of desperadoes who have been committing all kinds of depredations in New Mexico and Arizona for months past.

An Interview With Jesse James' Widow.

CHICAGO, April 21.

A special to the *Times* from Kansas City gives an extended interview with the wife of Jesse James. She tells of their courtship, which lasted 5 years. It was opposed by her parents, who lived near Kansas City, and they contrived to prevent an elopement in

1869. Just after Jesse, who was her cousin, had been declared an outlaw, with a price on his head, he visited her there and she hid him at her mother's in Kearney. Once they hid in the yard when Pinkerton was after him. They were married at her sister's in Kearney, April 24, 1874, and went to Sherman, Texas, making the honeymoon tour on the proceeds of the Blue Out robbery. She says Jesse was not in the Hot Springs robbery. Gad's hill netted him only \$200. Reports about the proceeds of his robbery are greatly exaggerated. They went from Sherman to Dallas in September. Mrs. James returned to Kansas City that Winter, while Jesse took part in the Corinth (Miss.) and Maudie (Kansas) affairs. They went to Edgefield (Tenn.), then to Baltimore. Jesse, she says, was not in the Huntington, West Virginia, robbery. They went back to Nashville. While there the Baxter Springs and Otterville robberies were perpetrated. She says Jesse was not in them. He was dealing in fast horses. During the time they lived there Jesse was a delegate to the State Convention which nominated Governor Foster. He was in the first Glendale and Burlington raids. In March he went to Kansas City and lived till September. The first Blue Out robbery was planned there. Afterwards they moved several times, and finally to St. Joseph, where he was killed. She says he did not take part in the Kansas City exposition robbery nor the stage robberies in Colorado and Texas.

Congressional Squibs.

WASHINGTON, April 21.

Senate Republicans this morning had a caucus on filling vacancies, called by Teller's resignation. Van Wyck of Nebraska will probably succeed him as chairman of the Pensions Committee. The Chinese bill was discussed. The general sentiment favored a bill to restrict Chinese immigration, but some thought the House bill was not drawn to obviate the objections of the vetoed bill, and ought to be amended. The discussion was informal, and no decision was reached, so that Senator Miller's programme to call up the House bill the first opportunity and offer the amendments of the Senate Foreign Relations Committee will be carried out.

Hoar had a brief spirited controversy with President pro tem Davis in the Senate to-day, on account of Davis objecting to Hoar's interrupting Senator Platt. Platt yielded and obviated the difficulty.

Bloody Murder in Boston.

BOSTON, April 21.

Mrs. Russell, aged 79, was killed by her son-in-law, Edwin Prescott, aged 66. Officers being notified, found the body in a back shed. Her skull was fractured and her throat cut from ear to ear. The murderer was arrested and taken to jail. The tragedy created intense excitement, as the parties moved in the highest society circles. Prescott was for many years a dry goods merchant in Washington and afterwards in Cambridge, and amassed a fortune. Through financial reverses his mind had been somewhat affected. While his wife was absent in Boston, Prescott quarreled with the old lady, and with a brick battered her face until she lost consciousness. He then pounded her head with a coal shovel, and finally cut her throat with a jack-knife. The deceased woman leaves a large estate. Prescott's wife had previously made arrangements for his confinement in an asylum.

A Murderer Strangled.

NEW YORK, April 21.

William Sindram was hanged this morning in the yard of the City Prison for the murder of his landlady, Mrs. Margaret Crane, in January, 1881. The prisoner met his fate with nerve and fortitude, and never showed any signs of fear from the moment the hangman called upon him until the black cap was drawn over his face. Sindram was calm and nodded to those he knew on his way to the gallows. The hangman's assistant was nervous and forgot to lower the cap until reminded. Sindram's face twitched, but he merely said "Hurry up." The hanging was done in a bungling manner, and the criminal died by strangulation.

The De Long Search.

NEW YORK, April 21.

The *Herald* prints this dispatch from Irkutsk: The following has been received by post from Jackson, dated at Yakutsk, March 27th: "I arrived there to-day. There is no news from Melville. I leave for the north on the 29th. Governor Tcherniaeff renders every assistance. It will be fifty days yet before ice breaks up here. The steamer Lena will be useless. I shall secure a steam launch for the month of June to come down the river Lena to Belun for news, or for my return."

Fitz-John Porter Again.

WASHINGTON, April 21.

At a Cabinet meeting to-day Fitz John Porter was again under consideration on a new petition from General Porter for relief from the sentence of court martial. The petition was referred to the Secretary of War.

A Humorous Congressman—Incongruities of Tariff Legislation.

WASHINGTON, April 21.

McKenzie, who never makes more than one speech in Congress during the session, intended to speak to-day,

and so determined, if possible, to drive all the members away in disgust before his turn should come, and he almost succeeded. McKenzie had not been long on his feet, however, before members began to stroll in, and soon he had a fair-sized and highly amused audience. He is a tall, good-looking man, with a long blonde beard and an agreeable voice, and a considerable fund of broad humor. He hit right and left to-day and many times set the House into paroxysms of laughter. One of his illustrations of the incongruities of tariff legislation was especially enjoyed. "Last year," said he, "the Ways and Means committee brought in and we passed a bill to admit free of duty the bible in the Chinese language, and at the same time we imposed a duty of 40 per cent. on the holy scriptures in our mother tongue. But that is not all, for having provided for the free admission of Chinese bibles, we have turned around and declared that the Chinese themselves shall not come."

The Pennsylvania Cyclone.

PENVILLE, Pa., April 21.

This district is the scene of woful devastation, waste and distress. The cyclone of Wednesday was of such short duration that no accurate description can be given, but its fury is patent. Many stories of the destruction of houses, churches, etc., are coming in. But little loss of life is yet reported, though Mr. Bundorf is probably fatally hurt and Mrs. Joseph Glassburner and five children seriously injured. John Weirgrave's wife was taken up and dashed to the ground, killing her instantly, but her baby, tightly clasped in her arms, was unharmed. Jesse Stauffer and two daughters suffered severe injuries.

Forgers Sentenced.

CHICAGO, April 21.

Three notorious forgers from New York, who began operation on banks last Fall, and were immediately captured, were sent to-day to the penitentiary for three years. Their names are John Bush, John Miller and Wm. Lawrence. A "pal," named Palmer, turned State's evidence.

Particulars of the Death of General Hurlbut.

PANAMA, April 20.

The last steamer from the South coast brings particulars of the death of General Stephen A. Hurlbut, United States Minister resident at Peru. Up to the morning of his death he had been enjoying the best of health, and awoke and dressed as usual early on the 27th. While washing his face he was suddenly seized with such pain in the region of the heart as compelled him to give vent to agonizing cries. For some minutes he remained in great agony and was deprived of all power of articulation. When he momentarily recovered consciousness his first exclamation was, "God bless you all. I am dying. Oh, my heart!" In less than twenty minutes from the first attack he ceased to exist. Directly the calamity became known the legation was thronged by a sympathetic multitude. The remains had temporary lodgment in Meigs' vault at Villages pending their transfer to the United States.

Recommendation by the "Thunderer."

LONDON, April 21.

The *Times* has a violent article relative to the debate in the House of Commons last night on the circular regarding Clifford Lloyd. It recommends further remedial measures, and that the proposed agitation should be crushed at all costs, as it could be done in a couple of months if the Government were free from constitutional trammels.

TELEGRAPHIC BREVITIES.

—Haverly's people in New York and Chicago know nothing of his reported death.

—The revenue cutter Corwin is to be sent to rescue the crew of the *Rodgers*.

—Nellie Burrell, who planned Howgate's escape, is in Washington, probably to throw the officers off the scent.

—The Illinois Senate to-day passed a bill for redistricting the State into Congressional and Legislative Districts.

—The safe in the house of Thomas C. Holmes, of New York, deputy collector of city revenue, has been robbed of \$5,150 in bonds.

—The Chairman of the House Appropriation committee is authority for the statement that Congress will adjourn about June 15.

—George Bohannon was executed at Rolla, Mo., to-day in presence of several hundred people. He said he thought he was only guilty in the second degree.

—John Russel Young was dined by the New York Lotus Club last night. It is understood he is to be married on Sunday and will sail for China on Monday.

A Fishy Story.
When Sir Charles Lyell, the eminent geologist, was in America, he seems to have had some curious advice given to him about traveling on the Mississippi steamboats. "Never pay your fare until you are compelled to," was the first piece of wisdom thrown at him. "And, pray, why not?" he asked. "Because your chances are better in case of trouble," "Will you kindly explain yourself, sir?" said Lyell. "Well," answered the American, "when I was traveling up the river last March, somebody cried out, 'Passenger overboard!' The captain hurried to the office and asked, 'Has the man overboard paid his fare?' On being answered in the affirmative, he turned to the pilot and said, 'Indifferently, 'Go ahead; it's all right.'"

English Horses.
English farmers find horse-breeding a remunerative industry; but there is a marked absence of light, fast horses adapted for carriages, delivery wagons and the saddle. The American Consul at Newcastle reports that there is not probably a three-minute horse on Tyneside. He thinks that with capable, energetic management in both countries a fortune could be made by introducing this class of horses from the United States into the United Kingdom, and it would be remunerative to British breeders if they were also to place a few British brood mares of this kind upon their stock farms.

Phonetic Spelling.
The Principal of the Irving School, Missouri, has broken loose on the phonetic system of spelling, and in his phonetic newspaper, which he does not weary of publishing, he says, "speaking of his effort to upset the old style of spelling: 'Meni' periodicals have since purchased tips and uz them, while this number that empoi revized spellings iz lejun. Dhus this gud work goz on, and a grajral reform haz begun, never to sea until full accomplishment.' The reader can take a long rest before the next extract is presented.
